

Extract 1: Questions 1-12

You hear an obstetrician talking to a patient called Melissa Gordon. For **questions 1-12**, complete the notes with a word or short phrase.

You now have 30 seconds to look at the notes.

Patient	Melissa Gordon <ul style="list-style-type: none">works as a (1)
Medical history	<ul style="list-style-type: none">has occasional (2)is allergic to (3)has a (4) _____ dietnon-smokerthis will be her second childneeded (5) _____ treatment before first pregnancyfirst baby presented as (6) _____<ul style="list-style-type: none">(7) _____ required during interventionafter giving birth, had problems with (8)<ul style="list-style-type: none">helped by midwife
Baby's father	<ul style="list-style-type: none">family history of (9) _____child from previous marriage has (10) _____
Points raised	<ul style="list-style-type: none">not keen on amniocentesisenquired about the possibility of (11) _____ testingprovided her with a leaflet on preparing (12) _____ for new baby

Part B

In this part of the test, you'll hear six different extracts. In each extract, you'll hear people talking in a different healthcare setting.

For **questions 25-30**, choose the answer (**A**, **B** or **C**) which fits best according to what you hear. You'll have time to read each question before you listen. Complete your answers as you listen.

Now look at question 25.

- 25.** You hear a dietitian talking to a patient.

What is she doing?

- ☐ **A** correcting the patient's misconception about obesity
- ☐ **B** describing the link between obesity and other diseases
- ☐ **C** stressing the need for a positive strategy aimed at weight loss

- 26.** You hear members of a hospital committee discussing problems in the X-ray department.

The problems are due to a delay in

- ☐ **A** buying a replacement machine.
- ☐ **B** getting approval for a repair to a machine.
- ☐ **C** identifying a problem with a particular machine.

- 27.** You hear a senior nurse giving feedback to a trainee after a training exercise.

The trainee accepts that he failed to

- ☐ **A** locate the CPR board quickly enough.
- ☐ **B** deal with the CPR board on his own.
- ☐ **C** install the CPR board correctly.

Part C

In this part of the test, you'll hear two different extracts. In each extract, you'll hear health professionals talking about aspects of their work.

For **questions 31-42**, choose the answer (**A**, **B** or **C**) which fits best according to what you hear. Complete your answers as you listen.

Now look at extract one.

Extract 1: Questions 31-36

You hear a sports physiotherapist called Chris Maloney giving a presentation in which he describes treating a high jumper with a knee injury.

You now have 90 seconds to read **questions 31-36**.

31. When Chris first met the patient, he found out that
- (A) she was considering retirement from her sport.
 - (B) her state of mind had aggravated the pain in her knee.
 - (C) she had ignored professional advice previously offered to her.
32. During his assessment of the patient's knee, Chris decided that
- (A) her body type wasn't naturally suited to her sport.
 - (B) the pain she felt was mainly located in one place.
 - (C) some key muscles weren't strong enough.
33. In the first stage of his treatment, Chris
- (A) was careful to explain his methods in detail.
 - (B) soon discovered what was causing the problem.
 - (C) used evidence from MRI scans to inform his approach.
34. Why did Chris decide against the practice known as 'taping'?
- (A) The patient was reluctant to use it.
 - (B) It might give a false sense of security.
 - (C) The treatment was succeeding without it.
